

Inclement Weather Plan

Girl Scouts of Texas Oklahoma Plains (GSTOP) has a comprehensive inclement weather plan, as well as communication plans, in the event that they are needed during camp. Our top priority is always the well-being and safety of our campers and staff.

Site Managers and Camp Directors are all on 24-hour watch when inclement weather of any kind is in the area. GSTOP staff maintain close relations with county officials as well as subscribe to emergency management alerts for the area. Stevens Ranch will be in full compliance with the Heaven's 27 Camp Safety Act by the beginning of the 2026 summer camp season.
