

State Regulations Updates

November 20, 2025

Stevens Ranch will be in full compliance with the Heaven's 27 Camp Safety Act by the beginning of the 2026 summer camp season.

We are currently receiving bids on the second entry/exit road, PA System, lighting, and ladder access for cabins. The fiber internet has been secured and will be installed this winter.

If you are troop camping this winter, please know that you could see construction at Stevens Ranch. Thank you for your patience and understanding as we ensure our camps continue to meet all state requirements and safety standards.
